Special Session for FMD and AI, sponsored by Animal and Plant Quarantine Agency, Korea

Special session for FMD and AI sponsored by Animal and Plant Quarantine Agency of Korea will present participants with chances to review the most recent outbreaks of FMD and AI along with its malignant, infectious impacts on a global scale. The lectures will further study ways of prevention and control, and early detection.

The session will invite distinguished experts all over the world as speakers and panelists including Donald KING of the Pirbright Institute in the United Kingdom and David SWAYNE of U.S. Department of Agriculture and others.

Date and Time

August 29(Tue), 08:30 - 12:10 (AI)
August 29(Tue), 13:45 - 18:00 (FMD)

Delegates' Q&A E-Board will open!

The Organizing Committee will open a "Delegates' Q&A E-Board" on our website, allowing delegates to post questions or suggestions about invited lectures and beyond. Thank you for your participation in advance.

What's On!

Student Social Media Reporters Launched!

17 college students have been selected as SNS reporters! For seven months to the Congress, they are going to write articles and create contents on our website as well as different social media, promoting Congress on online to global veterinarians and other related professionals and students.

Bokjori or Korean Lucky Bags

Bokjori is a Korean traditional rice strainer. As shown in its shape and function, the Bokjori was believed to gather lucks. On the dawn of the Lunar New Year's Day Koreans used to hang them on the wall of kitchen, main room, and floors to wish for more luck for the year.

Enjoy Korea!
